Github : <https://github.com/parisafauzan>

Informatics Engineering student at National Institute of Technology Bandung (ITENAS), graduate in October 2026, with hands-on experience in full-stack web development using modern frameworks such as React.js, Next.js, Vue.js, and Laravel. Proven ability to deliver impactful solutions in a professional environment, having developed web dashboards and mobile-focused applications during an internship that improved operational efficiency by up to 80%.

WORK EXPERIENCE

Fine.Potret - Purwakarta

Aug 2022 – 2025

Fotografer & Videografer , Freelance

- Provided personalized client services by assisting clients in selecting suitable visual concepts and addressing inquiries related to photo and video sessions.
- Conducted post-production editing and enhancement of photos and videos using Adobe Photoshop, Lightroom, and Premiere Pro, ensuring high-quality and aesthetically appealing results aligned with client expectations.
- Collaborated closely with creative teams, models, and clients to foster a productive and collaborative work environment, contributing to the successful execution of projects.

PT.Graha Sarana Duta - Bandung , Indonesia

Oct 2025 – Feb 2026

Web Developer, Intern

- Developed a web-based dashboard of client property data, accelerating the operations team's workflows up to 40%.
- Reduced report turnaround time by over 70% by building a mobile-focused web app for real-time PDF generation and direct camera integration.
- Developed a dashboard with automated email reminders, eliminating manual tracking and boosting marketing team efficiency by over 80%.

EDUCATION

National Institute of Technology, Bandung

Aug 2022 – Sept 2026

Bachelor's Degree in **Informatics**

GPA 3.77/4.00

Relevant Courses:

Web Development, Algorithms, Information System Analysis & Design, Quality Control, Informatics System Design, Data Structures & Types, Mobile Development, Database Management, Software Development Life Cycle (SDLC), System Modeling, Digital Image Processing, Web & Mobile Design, Organization & Management, Machine Learning Development, Data Analysis & Insight , Computer Vision, Cloud Computing.

SKILLS

Programming Languages:

JavaScript, Python, SQL, HTML/CSS (Tailwind CSS), C++ (Arduino)

Frameworks & Libraries:

- React.js, Next.js, Vue.js (Frontend)
- Laravel (PHP - Backend)
- Flutter (Mobile – Cross Platform)

Database & Backend:

- MySQL, Supabase, Firebase
- RESTful API Integration
- MQTT Protocol (IoT)

Cloud & DevOps:

- Cloud Computing (Huawei Cloud / AWS / GCP)
- Version Control (Git, GitHub)

Tools & Productivity:

- Adobe Photoshop, Lightroom, Premiere Pro (*visual content production*)
- Microsoft Office, Google Workspace

Project

Web Programming Project: Food E-commerce Platform

Feb 2023 – Jun 2023

Web Developer | **Bandung West Java**

- Developed a fully functional food e-commerce website using Laravel 11, focusing on responsive design and seamless user experience.
- Implemented essential e-commerce features such as product listing, shopping cart, order management, and payment integration.
- Utilized Blade templating engine, MySQL database to ensure scalability and efficient data management.
- Designed and implemented an admin dashboard with full CRUD (Create, Read, Update, Delete) functionality for managing products, categories, orders, and users.

Computer Vision Project: PKlot Detection

Jul 2024 – Aug 2024

Machine Learning Engineer | **Bandung West Java**

- Built a computer vision model for detecting parking lot occupancy using the PKLot dataset, leveraging YOLO (You Only Look Once) architecture for real-time object detection.
- Implemented image preprocessing, feature extraction, and bounding box annotation to improve detection accuracy and reduce false positives.
- Utilized Python, OpenCV, and Scikit-Learn to fine-tune the model and evaluate performance.

IoT Programming Project: Aquadex

Jul 2024 – Aug 2024

IOT Engineer | **Bandung West Java**

- Designed and developed Aquadex, an IoT-based smart aquarium monitoring system utilizing various sensors to measure water quality parameters such as temperature, pH, turbidity, and WaterFlow
- Integrated sensor data with both mobile and web platforms for real-time monitoring and control, enhancing user convenience and ensuring optimal aquarium conditions.
- Implemented MQTT protocol as a message broker for efficient, low-latency communication between IoT devices and cloud servers.
- Configured cloud-based database services to store and manage sensor data securely and reliably.

Mobile Programming Project: Fitness App

Apr 2024 – Jun 2024

Mobile Developer | **Bandung West Java**

- Developed a mobile health application to track and visualize users' fitness progress over time, focusing on exercise routines and workout consistency.
- Implemented user authentication, personalized workout plans, and progress dashboards to monitor metrics such as calories burned, workout duration, and exercise frequency.
- Utilized Flutter framework for cross-platform development, ensuring smooth performance on both Android and iOS devices.
- Integrated data visualization features using charts and graphs to display user performance trends in an intuitive interface.

ALIFBABA : Interactive Islamic Learning Platform (HKI Registered)

Des 2025

WEB Developer | **Bandung West Java**

- Developed a web-based interactive learning platform using Next.js and Supabase for DTA Al-Ikhlas.
- Built gamification features including XP, streak tracking, leaderboard, rewards, and progress monitoring.
- Integrated multimedia learning content including audio, video, quizzes, and digital Iqro modules.
- Registered under Indonesian Copyright (HKI) No. 001241470.

ORGANIZATION EXPERIENCE

Himpunan Mahasiswa Teknik Informatika ITENAS

Event Staff – Graduation Ceremony | 2022 – 2023

- Served as a member of the event division for the graduation ceremony, responsible for planning, coordinating, and executing event activities to ensure a smooth and memorable experience for graduates.
- Collaborated with team members to manage event schedules, liaise with vendors, and oversee technical requirements.
- Contributed to problem-solving on event day, ensuring that all activities proceeded according to plan without disruptions.

CERTIFICATION & ACHIEVEMENTS

- 2nd Place Winner – Huawei ICT Competition National Final 2024-2025 (Cloud Track) : <https://bit.ly/4bJO9jh>
- Registered Copyright (HKI) – ALIFBABA Interactive Learning Platform
Directorate General of Intellectual Property (DGIP), Indonesia
Registration No. 001241470 : <https://shorturl.at/bFrET>
